IMPORT STATISTICS
William C. George

REPORT No. FT 120

Imports for consumption include the following types of transactions:

(a) Immediate consumption entries:

(1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.

(2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.

(b) Warehouse withdrawls for consumption:

(1) Commodities withdrawn from bonded storage warehouses for consumption.

(2) For statistical purposes, metals, such as copper, lead, and zinc, withdrawn from bonded smelting and refining warehouses for consumption or for exportation, and commodities such as wheat and petroleum transferred from bonded storage warehouses to bonded manufacturing warehouses for further processing and subsequent withdrawal for exportation are included with warehouse withdrawals for consumption.

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword of the latest edition of Foreign Commerce and Navigation of the United States. Copies of the Foreword are obtainable upon request.

Commodity subgroup descriptions and country names are abbreviated in this report where space does not permit complete description. See Table of contents and Import Subgroup Codes of this report for complete descriptions. Complete country descriptions are also shown in Schedule C, Code Classification of Countries, (published as a part of Schedule A). A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country designation, though not published as a part of Schedule A, is also available.

The omission of a subgroup classification of country name from this report indicates no transactions for that subgroup or country. Asterisked figures represent group totals for imports from designated countries of origin.

Price: Annual subscription (including annual and monthly issues)..... $1.25
Monthly issues, each..... 0.10

Subscription to these reports should be placed directly with the Department of Commerce Field Offices or with the Superintendent of Documents, Washington 25, D. C.

Regular subscribers of FT reports are automatically supplied with copies of Foreign Trade Statistics Notes, a monthly publication containing information useful to users of foreign trade statistics (changes in type of shipments covered by the current statistics, unusual shipments, problems of valuation, classification, etc.).

A catalog of Monthly Foreign Trade Statistical Publications listing reports available on a free and paid basis and describing unduplicated information available for reference purposes is available free upon request to the Bureau of the Census.
